

Welcome to Portland, Maine!

Picking up your truck, SUV or car rental at [Portland International Jetport Airport \(PWM\)](#)? When arriving in Maine there is a small hanger with one main terminal located at 1001 Westbrook St, Portland, ME 04102, which is two miles west of downtown Portland, Maine. The small size of the airport makes navigating it easy. AutoRentals.com has put together a photo guide of the airport and all the companies located in the Rental Car Facility.

At this airport there are no free shuttles to nearby car rental companies, all the car rental companies are at the terminal. You can however search for ones located downtown and arrange for a Ride Share or cab to take you there. While less convenient, this can sometimes be a more affordable option for travelers looking to save money. Most of the time airports charge more per day for car rentals and the airport concession fees and taxes can make the total cost of the rental go up significantly. Make sure you compare different location prices to get the best option for you when getting a car rental Portland International Jetport Airport at AutoRentals.com.
